REQUIREMENTS FOR THE MINOR

Please indicate the semester/year you completed or plan to complete these courses.

The minor requires 15 credits in landscape architecture. You must receive a grade of "C" or higher in the courses for them to count toward the minor. The exceptions are LA courses that only offer the S/U option, such as LA 4830.

The courses can be any 15 credits taught by professors in the Department of Landscape Architecture. Landscape architecture courses taught by other faculty (such as the History of Landscape Architecture) may also count. Please send any questions to jlv29@cornell.edu.
