

Public Information Policy:

The Landscape Architectural Accreditation Board (LAAB) requires accredited programs to provide reliable information to the public. This information is intended to help potential students make informed application decisions.

Accreditation:

The department offers accredited, license-qualifying Landscape Architecture degrees at the **undergraduate** and **graduate** levels. The **undergraduate Landscape Architecture degree** is the only one of its kind in the Ivy League. Both academic programs provide a sound grounding in theory and technology, which is put into practice through the design studio and related courses.

For more information on LAAB, see: <http://www.asla.org/accreditationlaab.aspx>
